

Price Guide / Employer Commissioned Work

Specialist, themed, or identity-informed support can also be incorporated where relevant to the context and agreed focus of the work

Shorter Sessions

30-minute sessions: £45

Ideal for those needing lighter-touch support, regular contact during periods of pressure or crisis, additional check-ins, or urgent reflective space between full sessions.

Flexible & Focused Supervision Options

Alongside ongoing supervision, I offer flexible options to support specific needs, emerging situations, or focused areas of work. These can be particularly helpful for individuals or teams who may not require regular sessions, or who are seeking input around a specific piece of work or challenge.

- **Consultative Supervision**
A space to think through a specific situation, piece of work, or decision, drawing on reflective and supervisory perspectives to support clarity, direction, and safe practice.
- **One-off / Focused Sessions**
Single sessions centred on a particular issue, transition, or area of complexity, offering structured reflection and support without ongoing commitment.
- **Ad-hoc (as needed) Sessions**
Flexible sessions arranged as required, providing responsive support during periods of change, pressure, or increased demand.
- **Review / Revisit / Update Sessions**
Sessions to return to supervision after a break, reflect on progress, revisit themes, or consider next steps in practice or development.

These sessions are charged at the standard session rate, with flexibility discussed where appropriate.
